

Your Wellbeing Toolkit

For Hosted Buyers at The Meetings Show 2025

Event Wellbeing Week | 23–27 June | #PowerOfPause

Welcome, Hosted Buyer!

You've got a packed agenda, big conversations to have, and a lot of ground to cover. But your wellbeing matters just as much as your meetings. This guide is here to help you look after yourself while you're looking after business — because pausing isn't just helpful, it's strategic.

Why This Matters

Being "hosted" doesn't mean you have to be "on" 24/7. You're allowed to hit pause, to take a breath, and to recharge between conversations. Event fatigue is real — and your brain needs rest to stay sharp, focused and human.

Power of Pause: Wellbeing on the Go

Try these micro-moments throughout your day:

- One-minute grounding: Put your feet flat on the floor. Take three slow breaths. Feel your body arrive.
 - Between meetings? Pop into the SensoryCaIm Quiet Room for a reset.
 - Feeling overwhelmed? Step into the SensoryGarden – it's a nature-inspired space designed for decompression.
 - Mind racing? Try the 5-4-3-2-1 sensory check-in to come back to the moment.
-

Wellbeing Trail Highlights for Hosted Buyers

Here are a few recommended sessions and experiences that align with our wellbeing-first approach:

- Wednesday @10:00 — Workplace Yoga
Ease into your day with breath-led movement.
- Thursday @12:00 — Networking That Works (for Introverts)
Build connections that energise instead of drain.
- Thursday @15:20 — The Decompression Session
Breathe, reset, and leave the show feeling clear and calm.

Plus: visit the Human Library (Wed & Thurs), or drop into the Neurodiverse Inclusive Guidelines for the Events Industry session Thursday @12:40.

Your Wellbeing Checklist

- ☐ I've scheduled time between meetings
 - ☐ I know where the SensoryCalm and SensoryGarden spaces are
 - ☐ I've chosen 1—2 sessions just for me
 - ☐ I'm drinking water and not just caffeine
 - ☐ I've done at least one deep breath today
 - ☐ I reminded myself that pausing is powerful
-

Need a Break? Here's Where to Go

SensoryCaIm Quiet Room: A low-stimulation, supervised space with soft lighting, noise-reducing furniture, and sensory tools to help you decompress in peace.

SensoryGarden: A biophilic haven filled with greenery, calm sounds, and natural textures – a little slice of nature in the heart of Excel.

Both spaces are open to all attendees throughout the show. No booking needed. Just come in, breathe, and be.
